The SOCA biofireplace is a modern and stylish free-standing fireplace powered by bioethanol, which is able to bring an amazing atmosphere to any room in which it is installed. Due to its sturdy construction and compact dimensions, the SOCA bio-fireplace is suitable for installation on tables and countertops.

Thanks to the use of a classic combination of steel painted with black fireplace paint and transparent heat-resistant ceramic, the SOCA biofireplace will successfully blend in with any decor.

The SOCA biofireplace is a modern and compact design, designed for quick and hassle-free installation directly on a table or countertop.

HITZE biofireplaces can be additionally equipped with a range of decorative elements, including ceramic wood, various types of decorative stones and a proprietary fibre to imitate the glow effect.
